Program Description – prepared by Cambridge Educational Services

Parents can opt for tutoring instruction for 10 three-hour sessions or 30 one-hour sessions in a group or individual setting. With this classroom-based instruction, each student is issued a Cambridge textbook containing illustrative materials, homework assignments, testing exercises, and explanatory text.

Parents can also choose on-line instruction. Students who select the guided self-study (Web and-or tutoring) program meet with a certified instructor according to a specific schedule – typically at the beginning of the program and a minimum of twice during the following four months to discuss expectations, assignments and progress. Students using the Web have unlimited access to test preparation – 24 hours a day and 7 days a week for four months. Students also keep contact with instructors via e-mail.
